# Policy from New Mexico

---

“All investigations now require the completion of a genogram, a map of family relationships and history, and for the genogram to be uploaded in the case record.”

(See PR10-Out of Home Placements issued January 14, 2021.)

# Assessment Rubric

---

- Fully Practice:

Every child has a genogram filled out. Genograms are regularly updated and saved in a place accessible to the child's team.

Every child who is able to communicate has a heart map filled out and saved in their file.

- Partially Practice:

Our team members make genograms and/or heart maps with youth sometimes on their own.

# Next Steps

---

- We'll share templates
- What help do you need, if any, to adopt this practice?
